

Machine Shop Lead Machinist

Located in Pacific, Washington, we seek an experienced Lead CNC Machinist with set up and leadership capabilities. For over fifty years, Norfil, LLC has been involved in close tolerance machining and assembly, primarily in the aircraft industry.

With an established reputation for quality work and a broad range of machinery, we have focused on manufacturing large and small parts and have major capabilities in CNC (3, 4 and 5 axis), profiling, vertical milling, horizontal milling, boring and turning. We have developed expertise working with a variety of different types of metals, such as Titanium, Inconel, Monel, Steel and Carbon Alloys and Aluminum Alloys.

Available shifts:

5:00 a.m. – 3:30 p.m., Monday through Thursday

3:30 p.m. – 2 a.m., Monday through Thursday

Required Skills and Education:

- 5+ years of experience with CNC Lathes or Mills, preferably in an aerospace manufacturing environment.
- Assist Production Manager schedule and assure shift work is completed
- Able to train and mentor machinists
- Troubleshoot machine and tooling issues
- Set up experience required
- Ability to read engineering drawings and blueprints.
- Understanding of tooling, programming, and set-up of CNC controlled Lathes and/or Mill machines
- Ability to inspect work produced using micrometers, bore gauges, calipers and other measuring instruments to verify conformance to specifications.
- Proactive approach, adherence to quality and effective communication skills.
- Ability to lift up to 60 lbs.
