

AN AS9100 REGISTERED COMPANY

Machinist Apprentice at Electroimpact, Inc. in Mukilteo WA.

Electroimpact specializes in aircraft manufacturing automation. Learn more at:

<https://www.electroimpact.com/Company/About.aspx>

Electroimpact is seeking approximately 1 self-directed individual to join our team in the Machine Shop. This is a career pathway to a lifetime of value. You will work with Engineers, Programmers, Planners and other Machinists to produce quality parts in a timely manner. Learn to safely manufacture parts using various tooling and machinery within tolerances defined on drawings and CAD models using high-precision machine and inspection tools. Train to be quality-minded while learning the flow process of manufacturing. Machinist Apprentice duties will also include general shop maintenance, large machine support, and second operation part finishing. Some key features of this job:

- An Enrolled Apprentice will receive both OJT and RSI training.
- Within four years you can earn a Journey-Level Certificate enabling you to work anywhere in the U.S. as a master tradesperson. Journey-Level Certificates are nationally recognized and respected by aerospace and advanced manufacturing industry employers.
- Electroimpact pays for all testing, books, and tuition costs associated with this program.
- A career in aerospace and advanced manufacturing is an opportunity for both women and men that have the proper level attention to detail.

To qualify for this job you will need to meet these requirements:

- Able to read, write, hear and communicate verbally in English and with a computer.
- Able to frequently stand; walk; use hands to handle or feel; reach with hands and arms over the head; bend, kneel, and lift up to 45 lbs.
- Able to climb on ladders, operate forklifts, and utilize hand tools like screwdrivers and wrenches.
- Be at least 17 years old.
- Have a high school diploma or equivalent.
- Authorized to work in the U.S.

Ideal candidates will have:

A good attitude about work; good attention to detail; ability to follow verbal and written directions; ability to remember; able to show organizational and planning skills; problem-solving skills; successful work experience in a team environment, and good references. Be leadership minded, an independent thinker, have an ability to interface with all other disciplines within the organization including internal & external customers.

Work is primarily performed in a shop environment. There will be constant exposure to dust, odors, oil, fumes and noise. Includes exposure to outside elements when traveling between buildings. The first six months may include various shop-helper duties before the program begins in earnest.

Starting standard days and hours of work are Monday through Friday from 7am-3:30pm. The position may require the ability to report to work outside normal business hours when the need arises. The apprenticeship program requires the ability to move to another shift at some point to allow for more diversified training.

This is a full-time hourly position with medical, dental, vision, profit sharing, and retirement benefits. Wages DOE. Successful completion of criminal background check and drug testing is required for employment.
